THREE SIXTY DEGREES

Three Sixty Degrees is a home décor store which showcases leather goods and accessories and has created magic with its innovative craftsmanship. It offers an array of products that include embossed leather ottomans, a treasure chest that opens into a bar, and also exclusive leather bar accessories.

STEUBEN GLASS

Steuben Glass offers three new designs: the Bouquet Vase, the Honeycomb Vase and the Trillium bowl. Steuben glass has been crafted by hand at the glass furnaces of the atelier in Corning, New York, USA since 1903. The collections range from classic favourites to intricately detailed designs, engraved by a copper wheel: a meticulous and time-intensive 17th century art that takes years to master.
